Inline filter housing with

Virgin Mixed Bed Di Resin for Window Cleaning/aquariums/car Valeting

Di-RO In-Line De-ionisation Water Filter cartridge For Reverse Osmosis Systems 1/4" Quick connect

The Di-RO is a new series of deionization in-line filter cartridges. fitting all standard reverse osmosis systems.

The filter cartridge is filled with a mixture of both cationic and anionic ion exchange resins which come at the end of the RO filtration stage and they effectively remove the remaining ions leaving totally deionized water.

Suitable for:

Reverse osmosis systems

Laboratories

Aquariums

Window Cleaners

Dentists Labs

Product Features:

High-quality Deionisation Resin

Product Specifics:
